

BLUE CROSS

From designing to production

BLUE CROSS® WALL-TYPE SUCTION UNIT VA-1200

Development concept
『 **Safety & Avoiding to spill waste liquid** 』

Suction bottle is easier to treat with the handle.

BLUE CROSS® WALL-TYPE SUCTION UNIT VA-1200

- Pressure control unit is separated from suction bottle as a result of pursuing easier disposing of waste liquid, cleaning of suction bottle and treating of pressure control unit.

- Pressure control unit is designed to fit in the hand, easy to insert or pull into or out of the outlet.
- Pressure gauge, pressure control knob and on-off switch are located on the front side for easy operation.
- Pressure control unit can be used for a floor-type suction stand.

Pressure control unit
1510090T VA-1200F

- Bucket hanger is compatible with hook type and slide type.

- Suction bottle is made of polycarbonate which is light weight and withstands impact.
- Suction bottle is designed safe with newly designed overflow prevention valve.
- Suction bottle has a convenient handle for easily pulling the bottle out of bucket and carrying it to sink for waste liquid.
- Bottle bucket is designed to block view of waste liquid with consideration of patients and ambience.
- Anti-bacterial air filter (PTFE hydrophobic) is effective to protect hospital's piping system.

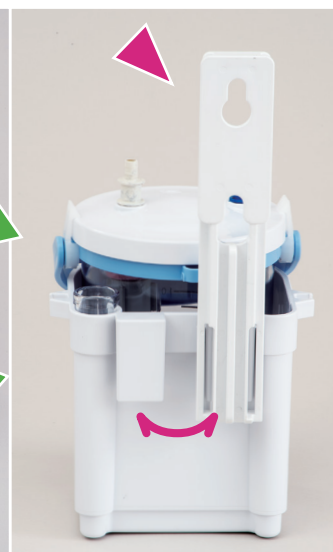

BLUE CROSS® WALL-TYPE SUCTION UNIT VA-1200

- Suction bottle with convenient hand-carry type handle.

- Tube holders (4 places) and catheter holder are equipped to prevent waste liquid from dripping after suctioning operation and during changing suction bottle.
- Bottle bucket is designed to be attached either on the right side or left side of pressure control unit.

4 handle colors are available.

Ex. Different handle color for different hospital ward.

1510050T Blue

1510060T Orange

1510070T Mint

1510080T Pink

VA-1200 * Chose the color from 4 colors	
Suction pressure range	0~-80 kPa (0~-600 mmHg)
Maximum suction pressure	*Depends on suction pressure of hospital's piping system.
Suction bottle	1200mL (Polycarbonate)
Accessories	Pressure control unit, Bottle set, Handle set, Bottle bucket, Bucket hanger, Catheter holder, Connection hose, Suction hose, Anti-bacterial air filter (PTFE hydrophobic filter)

★ Disposable type

Anti-bacterial air filter (0.2μ)
1320340T BF-50 10 pcs. / Pack

PORTABLE STANDS

Oxygen and Suction Stand

1520010 OV-S

Oxygen Stand

For single oxygen inhaler unit 1520020T OX-S
For two oxygen inhaler units 1520030T OX-W

Suction Stand

For single suction unit 1520040T VA-S
For two suction units 1520050T VA-W

CONNECTORS

Y Type Double Connectors for Outlet

For Oxygen 1520060T YO-O₂
For Vacuum 1520070T YO-VA
For Air 1520080T YO-AIR
For Nitrous Oxide 1520090T YO-N₂O
